Art Unit: 3653

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 2 and 38 through 40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 line 11 conflicts with line 9 of claim 1 in that line 11 recites "moving the engaging portion radially outward" while line 9 recites the engaging portion does not move radially.

In claim 40 line 3, the recitation of the arcuate segment moves radially outward is redundant as the engaging portion (arcuate segment as defined in claim 40) has been previously recited to move radially outward in claim 1 line 11. Further, this recitation conflicts with line 9 of claim 1 for the reason set forth above.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 38 through 48 are rejected under 35 U.S.C. 102(b) as being anticipated by Heinrich (cited by applicant).

Note the engaging portion 9.

5. Claim 2 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Art Unit: 3653

6. Claim 49 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 50 through 55 are allowed.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H Bollinger whose telephone number is 703-308-1113. The examiner can normally be reached on Monday through Friday from 9:00 am to 5:00 pm.
